### **Background Information:**

The role of the Parent Club at Stillaguamish Valley School is to raise funds to support programs that benefit the students. Examples of this support include assistance with the French Immersion Camp, orientation, all-school picnics, Yearbook, graduation, and the year-end trip.

### **Administrative Consideration:**

The Parent Club would like to donate \$1000 to assist in the student expenses for the year-end trip this June to Winthrop. As this is generally a trip that families take together, these funds will significantly off-set the cost per student, lightening the financial portion of the trip for families.

### **Superintendent's Recommendation:**

That the Board approves the donation from the Stillaguamish Valley School Parent Club.
