"Providing the means to accomplish dreams"

Supportive Information Sheet

**Subject: DONATION FROM BOEING COMPANY FOR THE
FIRST ROBOTICS TEAM AT ARLINGTON HIGH
SCHOOL**

Action

Page(s): _____ Cover Only

Submitted by: _____ Brett A. Sarver, AHS CTE Director

Date: _____ October 27, 2008

Background Information:

The students at Arlington High School have formed a FIRST Robotics club this year. The Arlington High School FIRST Robotics team has been pursuing various fundraising opportunities to raise money for the new club. The Boeing Company announced last week that it has awarded a \$6,000 donation to the Arlington High School Chapter of FIRST Robotics. This donation will pay for the chapter registration and for the kit of parts for building the new robot for the team. Several weeks ago the FIRST Robotics team also received a \$7,500 grant from the Office of Superintendent of Public Instruction (OSPI) and it is currently pursuing a grant from the National Space Agency (NASA).

Administrative Consideration:

The donation from the Boeing Company will be directly applied towards the chapter registration and purchase of the kit of parts for assembling the new robot.

Superintendent's Recommendation:

That the Board accepts the donation from the Boeing Company to Arlington High School Chapter of FIRST Robotics.
